VALIDATION

O&M record: _____

GeoSearch: _____

Requesting an exemption from the Report of System Status (RSS) process because:

- The new septic system has been installed for less than six months.
- The property will be connected to public sewers within three months.
- The septic tank will be decommissioned within three months.
- A Repair or Remodel application with a field visit and a satisfactory operation and maintenance (O&M) inspection were both completed less than one year ago.
- The home was removed within three months after an RSS was issued and a new home was built less than six months from this exemption request (Verified by permits and occupancy certificate).

HEALTH DEPARTMENT USE ONLY

- Approved Denied
- The Health Department requests that an Operation and Maintenance (O&M) inspection be completed on this septic system to ensure that it is functioning properly. Without an O&M inspection the condition of this system cannot be determined and may result in a system malfunction or failure in the future.

Comments _____

A one-time RSS exemption is granted for this real estate transaction and will **expire six months** from the approval date. Any future real estate transactions will require a RSS per the Health Department regulations.
