

Remodel Water Supply Inspection

Tacoma-Pierce County Health Department requires this application to inspect your water source for a proposed remodel. This requirement for a well inspection is noted in Section 15-C.2b of the Environmental Health Code; Chapter 3.

Your application submittal package must include:

- This application.
- A map showing clear directions to the site.
- A copy of the site plan showing:
 - Accurate map and plot plan with all existing wells on the parcel.
 - 100-foot protective radius around the well(s).
 - All building structures on the parcel.
 - Septic tank(s) and drainfield(s) on site.
 - Any other features including surface water, pastures, sewer lines, etc.
- Recorded easement if your well is on a neighboring parcel.
- Current bacteria test results (less than one year old).
- Current nitrate test results (less than three years old.)

We will charge a resubmittal fee for incomplete applications.

Questions? Contact Jeremy Bush at (253) 798-2885 or EHSepticSystems@tpchd.org.
