Other rare disease of public health significance

REPORT WITHIN 3 BUSINESS DAYS

Acquired immunodeficiency syndrome (AIDS) (including people previously reported with HIV)
Arboviral disease (acute) (West Nile virus, dengue, Eastern and Western equine encephalitis, Zika, etc.)
Campylobacteriosis
Chancroid
Chlamydia trachomatis infection
Creutzfeldt-Jakob disease
Cryptosporidiosis
Cyclosporiasis
Giardiasis
Gonorrhea
Granuloma inguinale
Hepatitis B surface antigen-positive pregnant woman
Hepatitis C (acute)
Hepatitis D (acute, chronic)
Herpes simplex (neonatal, genital) (initial infection)
HIV infection
Immunization reactions (severe, adverse)
Influenza-associated death (lab-confirmed)
Lyme disease
Lymphogranuloma venereum
Malaria
Pesticide poisoning (non-hospitalized, non-fatal, non-cluster)—**Call (800) 222-1222**
Prion disease (including Creutzfeldt-Jakob disease)
Syphilis (including congenital)
Tetanus
Trichinosis
Varicella-associated death

REPORT WITHIN 7 BUSINESS DAYS

Tuberculosis infection (latent) (positive tuberculosis skin test or interferon-gamma release assay, e.g., QuantiFERON®-TB Gold)

REPORT MONTHLY

Asthma (occupational) (suspected or confirmed)—**Call (888) 66-SHARP**
Birth defects (autism spectrum disorders, cerebral palsy, alcohol-related)—**Call (360) 236-3533**
Hepatitis B (chronic) (initial diagnosis or previously unreported cases)
Hepatitis C (chronic)
