

# Do Your Programs Measure Up?

**Our public health experts help get the answers you need. Partner with us, the trusted source for public health data.**

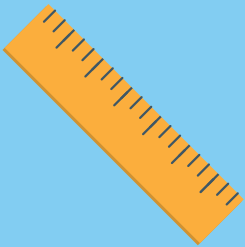

Tacoma-Pierce County  
**Health Department**  
*Healthy People in Healthy Communities*

## Assessment

Better understand the health needs, service gaps and assets of your community to deliver relevant, successful and timely services.

## Evaluation

How effective are your programs? Are they reaching the right people? We help you answer those key questions to improve your programs.

## Quality

Our quality experts help your programs maximize value for your customers and streamline the flow of services.

## Planning

Engage the right stakeholders, use the best approach and customize the process to develop a strategic plan or community health improvement plan.
